MY SCOPE OF WORK:

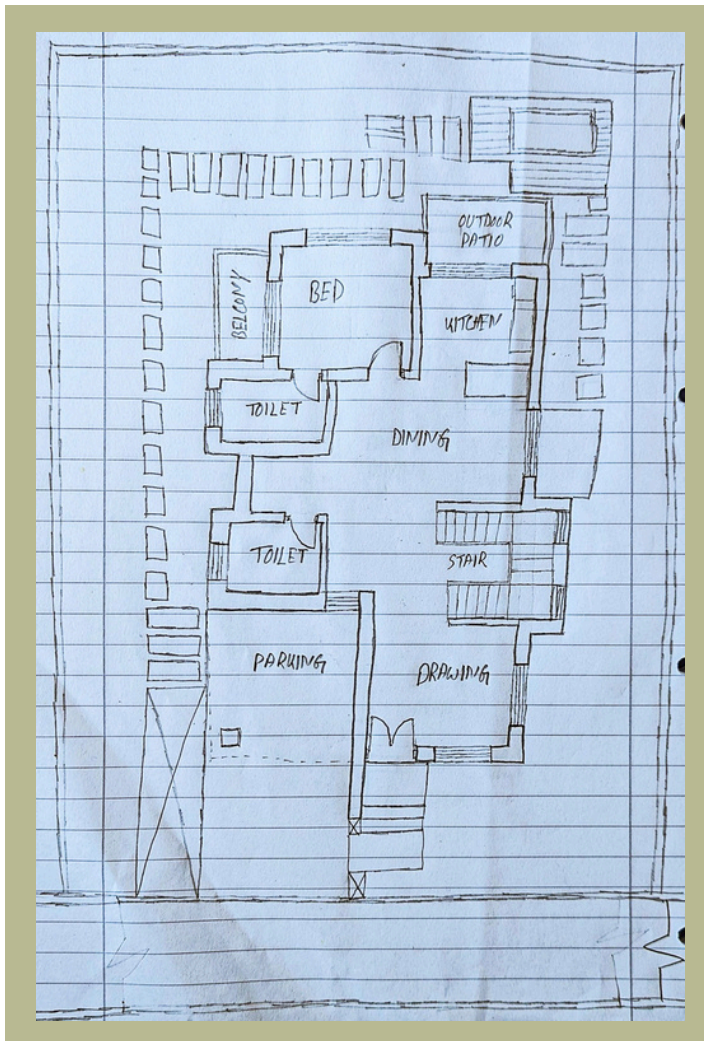

- CONCEPT SKETCH DEVELOPMENT
- 2D DRAFTING
- BIM MODELING (REVIT)
- PLAN GENERATION
- ELEVATION DEVELOPMENT
- SECTION DEVELOPMENT
- ARCHITECTURAL VISUALIZATION
- WORKFLOW

This is my recent practice project. Here I wanted to explore a specific project workflow using my software skills with architectural understanding. I am still updating this project from sketch to final animation. With this project I am practicing Revit for my BIM expertise.

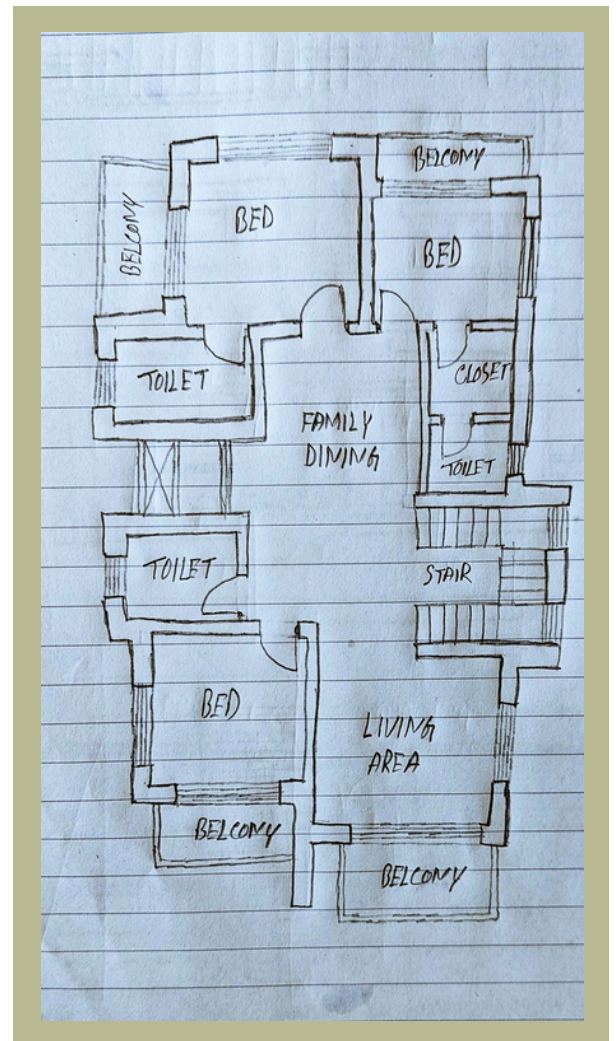

SKETCH → AUTOCAD → DRAWINGS → REVIT BIM MODEL → RENDERING
